#### SCHOOL OF ENGINEERING AND NATURAL SCIENCE.

No. 247.

The 20th November 1874.

With the sanction of His Excellency the Governor General in Council conveyed in the despatch noted in the margin, a school for the education of natives for the Departments of (1) Public Works, (2) Revenue Survey and Settlement, and (3) Forests, will be established in connection with the Bangalore High School, on or about the 1st of April 1875, under the designation of the "School of Engineering and Natural Science." The school will consist of two departments termed Upper and Lower Divisions designed respectively to furnish employés for the Upper and Subordinate Establishments of the Departments referred to above.

2. The selection of candidates for nomination to the Upper and Lower Divisions of the school respectively will be made annually in the month of March, under the orders of the Chief Commissioner, and will be restricted to youths of not less than 17 or more than 22 years of age, of good health and physique, (as certified by competent medical authority), of active habits and who are prepared to serve in any part of the Province of Mysore.

3. All candidates for the Upper Division of the school must previously to nomination have passed the University "First-in-Arts" Examination. Those for the Lower Division who are intended to fill grades corresponding with the present Upper Subordinate Establishment of the Public Works Department must similarly have passed the University "Matriculation" Examination. Candidates for employment in the grades corresponding with the present Lower Subordinate Establishment of the Department Public Works, will be subjected to an entrance examination in Arithmetic, Kanarese and English.

4. If the number of approved candidates for either division of the school is in excess of the number required, the Chief Commissioner may, at his discretion, direct that selection be governed by a competitive examination in Mathematics, English and Kanarese.

5. Nominations will be made in the first instance without reference to the special department of the public service to which the pupils will ultimately be appointed. The first half of the course prescribed for both divisions will be occupied with such subjects as are common to the requirements of all three departments of the service. At the conclusion of the first half of the course, the students will be allotted to the several departments of the service, selection being made as far as possible with reference to the aptitude and inclination of each student. Thenceforth the education of the students will be conducted with reference to the special requirements of the department of the service to which they are assigned.

6. An engagement will be taken from all candidates previously to final nomination, binding themselves with two securities in the sum of Rs. 2,000 for the Upper and Rs. 500 for the Lower Department, to serve the Mysore State, if required, in the Department to which they may be ultimately assigned, in any part of the Province to which they may be sent, for a term of not less than five years from the date of their final admission to the service.

7. The course of instruction in the Upper Division for pupils under training for the superior grades of the departments specified in the 1st para of this order will ordinarily occupy three years. The term may be abridged in the case of any student who is able to complete the course in a less period.

The fee for pupils while under instruction in this Division is fixed at Rs. 15 per mensem payable quarterly in advance, and they will provide their own books, instruments, &c.

The course of instruction for students in the Upper Division will embrace the following subjects:—

- I. Mathematics.
- II. Natural Philosophy.
- III. Mensuration and Estimate making.
- IV. Surveying and Levelling.
- V. Constructive Engineering.
- VI. Architectural and Topographical drawing.
- VII. Natural Science, including botany and vegetable physiology, chemistry, geology and meteorology (for candidates for the Revenue Survey and Forest Departments.)

8. The course of instruction in the Lower Division will ordinarily occupy two years, but the term may be abridged as in the case of the Upper Form.

Students while under training in this Division will receive from Government a monthly allowance of Rs. 8—0—0 per mensem during the first year, and Rs. 12 per mensem during the second year of the course, provided that no student shall be advanced to the higher scale of pay, whose conduct and progress do not in the opinion of the Principal entitle him thereto. Students in the Lower Division will be required to find their own books and instruments.

9. The course for the Lower Division will embrace the following subjects:—

- I. Mathematics.
- II. Surveying and Levelling.
- III. Engineering.
- IV. Drawing and Estimating.
- V. Account and Book-Keeping.
- VI. Elements of botany and vegetable physiology, chemistry and geology (for candidates for the Revenue Survey and Forest Departments.)

The course for candidates for the Lower Subordinate Establishment will be less difficult in degree than that to which candidates for the Upper Subordinate Establishment will be subjected.

10. Quarterly examinations will be held to test the progress of the students in both Divisions, and any student who fails to satisfy the Examiner at such examinations, or who is considered unlikely to attain the required proficiency within the period prescribed for the course, will be reported, in view to his removal from the school, in which case he will forfeit his claim to an appointment under Government. Cases of marked misconduct on the part of any pupil will be similarly reported with the same object.

At the close of the course a final examination will be held designed to test the general proficiency of the students in each division of the school. Seniority in the several grades and departments will be determined by the result of this examination.

11. Those students who pass will join the departments to which they are assigned, in the order of their passing on probation for one year, at the end of which period, if they give satisfaction they will be confirmed and will thereafter be fully eligible for promotion. The appointments in the several departments of the Mysore service, for promotion to which in due course passed students will be eligible on the satisfactory completion of their term of probation, are as follows:—
